## Traspo® 910ADR

- **Traspo®**910 ADR diesel tank
- Carbon steel
- Fixed in a shock proof and anti-roll protective frame
- Internal breakwater plates
- Nominal capacity 898 litres
- Dimensions 1895x990x1165
- Total weight 246Kg
- 60L/Min 12V **Piusi** pump
- Automatic Fuel nozzle
- **Piusi** M24 fuel meter
- ES fuel filter
- 5m hose

CODE:ES-TFTK910/60X2

To solve the fuel transport issue, Emiliana Serbatoi has designed and developed Traspo®, a range of steel tanks, in the compliance of the following approvals: ADR (road transport), ADN (transport on inland waters), IMDG (sea transport) and RID (rail transport). Traspo® tanks are manufactured in carbon steel, tight welded and are externally protected by a sturdy steel frame. The Traspo® range consists of five tank's models with the following capacities: 250, 380, 450, 620 and 910 liters. Traspo® 620 and 910 models are also equipped with internal breakwater plates.
